

A RESOLUTION OF THE GWINNETT COUNTY BOARD OF COMMISSIONERS

**A RESOLUTION TO AMEND THE GWINNETT COUNTY LAND DEVELOPMENT AND
OTHER SERVICES FEE SCHEDULE**

WHEREAS, the Gwinnett County Board of Commissioners adopted the “Gwinnett County Land Development and Other Services Fee Schedule” on December 15, 2009; and

WHEREAS, it is incumbent upon Gwinnett County to cause land disturbance, site development and building construction plans to be submitted for review, to require land disturbance, building, and fire permits to be issued, and to require that inspections occur, thus ensuring compliance with the Development Regulations, the Zoning Resolution, the Buffer, Landscape, and Tree Ordinance, the Soil Erosion, Sedimentation and Pollution Control Ordinance, the Floodplain Management Ordinance, the Construction Code, the Fire Protection and Life Safety Ordinance, the Georgia Accessibility Code, the Life Safety Code, and State Fire Law; and

WHEREAS, in order to ensure that Gwinnett County’s regulatory fees approximate the reasonable costs associated with regulatory activities and to ensure that Gwinnett County’s regulatory fees are in harmony with legislation passed by the Georgia General Assembly, periodic revision of the fee schedule is necessary; and

WHEREAS, since the development industry benefits directly from the plan review, permitting, and inspection process, it is proper for the industry to bear the costs for these governmental services;

NOW, THEREFORE, BE IT RESOLVED BY THE GWINNETT COUNTY BOARD OF COMMISSIONERS this the 5th day of October, 2010 that the fee schedule entitled the "Gwinnett County Land Development and Other Services Fee Schedule" is hereby amended by deleting the existing fee schedule in its entirety and inserting in lieu thereof the following:

Building Permit: Authorization by Gwinnett County Building Official (or his/her designee) to any owner or authorized agent requesting to construct, enlarge, alter, repair, move, demolish, or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert, or replace any electrical, gas, mechanical, or plumbing system. *(NOTE: A single building permit encompasses all components within the scope of the proposed construction for each specific project.)*

Certificate of Completion (C.C.): Document issued by the county building department and fire marshal's office to indicate that the construction work authorized by the building permit has been completed which is either applicable to a non-occupied building, structure, building/structure addition, or any portion thereof, or involves a limited scope of renovation that does not change the occupancy or configuration of the affected space. *(Temporary C.C. may be issued with conditions.)*

Certificate of Occupancy (C.O.): Document issued by the county building department and fire marshal's office to authorize the occupancy of a building, structure,

building/structure addition, or any portion thereof. (*Temporary C.O. may be issued for purpose of conditional occupancy with restrictions.*)

Complete Building Permit: Authorizes construction consisting of footings, foundation, slab on grade, exterior and interior walls, interior finish materials, roof, and associated mechanical, electrical, and plumbing systems which is fully compliant with all requirements for tenant use and may be occupied. For multi-tenant buildings of commercial and multifamily construction, a complete building permit shall consist of a shell building permit and a spec space or interior finish permit for each individual tenant space. For one- and two-family dwelling construction, a complete building permit shall apply to single-family residences, duplexes, townhouses, and mobile homes.

Construction Valuation: Total expense incurred by a contractor consisting of labor, materials, equipment, financing, services, utilities, overhead, profit, and architectural and engineering fees for all work associated with a construction project including but not limited to structural, electrical, plumbing, mechanical, interior finish, and site preparation.

Development Permit: Authorizes all activities associated with the land development process, including clearing and grubbing, grading, and the construction of improvements including but not limited to streets, surface parking areas, water/sewer/stormwater systems and facilities, site planting and landscaping, sidewalk or other structures permanently placed upon the property except for buildings or other structures requiring the issuance of a building permit.

Fire Permit: Authorization by Gwinnett County Fire Marshal (or his/her designee) to any owner or authorized agent requesting to construct, enlarge, alter, repair, move, or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert, or replace any electrical, fire alarm, fire suppression, or commercial hood system, or to store, handle, or use hazardous materials.

Foundation Building Permit: Authorizes construction of footings, foundation, slab on grade, and underslab plumbing and electrical components and systems.

Grease Trap Permit: Authorizes installation of an exterior grease trap for projects located within incorporated jurisdictions for which sanitary sewer service is provided by Gwinnett County.

Interior Finish Building Permit: Authorizes construction within an interior space for occupancy by a specific tenant which consists of either the initial build-out in a shell building, or renovation of an existing tenant suite or spec space.

Land Disturbance Permit (clearing): Authorizes removal of trees and other vegetation, placement of required tree protection measures, and installation of soil erosion and sedimentation controls.

Land Disturbance Permit (clearing and grubbing): Authorizes removal of trees, stumps, roots, and other vegetation from a property, placement of required tree protection measures, and installation of soil erosion and sedimentation controls.

Land Disturbance Permit (grading): Authorizes movement, earth borrow, and storage of soil along with removal of trees, stumps, roots and other vegetation on a property, placement of required tree protection measures, and installation of soil erosion and sedimentation controls and may include installation of storm water systems and facilities.

Major Revision: includes but is not limited to: revisions to a site development permit over 5,000 square feet; add lot(s) to a plat; add impervious surface over 1,000 square feet; storm, drainage, or utility easement over 50 lineal feet added to plat; changing design of sewer or water line.

Minor Revision: includes but is not limited to: revisions to a site development permit under 5,000 square feet; add note(s) to a drawing; building footprint to match site plans; relocate plant material to accommodate ground sign; add utility concrete pad; storm, drainage, or utility easements under 50 lineal feet added to plat; add a manhole.

Miscellaneous Building Permit: Authorizes construction of non-building and/or non-occupied structures (except swimming pools), and installation of building components and systems. Miscellaneous building permits required for commercial and multifamily construction include but are not limited to the following: communication towers (*including antenna co-location*); demolition; electrical, mechanical, or plumbing only or combination thereof; exterior only renovation of existing building/structures; ground signs; landscape irrigation systems; rack/conveyor/shelving systems; retaining walls; swimming pools; tents; underground utility vaults. Miscellaneous building permits

required for one- and two-family dwelling construction include but are not limited to the following: accessory storage buildings; demolition; detached garages; electrical, mechanical, or plumbing only or combination thereof; exterior decks; farm buildings; gazebos; landscape irrigation systems; retaining walls; swimming pools.

Shell Building Permit: Authorizes construction consisting of footings, foundation, slab on grade, exterior walls, roof, and "rough" installation of mechanical, electrical, and plumbing systems which upon completion is not fully compliant with all requirements for tenant use and cannot be occupied. (For multi-story tenant shell buildings, the permit includes all elevated floor systems, mezzanines, stairways, elevators, and common areas.)

Sign Location Permit: Authorizes installation of a permanent wall sign on the face of a building or ground sign attached to or set within a structure which is supported independent of a building.

Spec Space Complete Building Permit: Authorizes construction within an interior space which satisfies all requirements for proposed future use without an assigned tenant at the time of permit issuance.

Spec Space Incomplete Building Permit: Authorizes construction within an interior space which partially satisfies the requirements for proposed future use without an assigned tenant at the time of permit issuance.

Structural Frame Building Permit: Authorizes construction of footings, foundation, slab on grade, underslab plumbing and electrical components and systems, and structural frame.

Tall Structure permit: Authorizes the specific height and location of a structure which exceeds fifty (50) feet in height including but not limited to communication towers, antenna co-location on existing communication towers, steeples, buildings, and silos.

Temporary Outdoor Activity Permit: Authorizes a specific use on a property for a time period of up to 21 days including but not limited to Cinco de Mayo events, carnivals, sidewalk sales, pumpkin sales, and Christmas tree sales.

Tenant Change Permit: Authorizes a new tenant to occupy a previously occupied space in which no construction is proposed and in which the proposed occupancy is the same as for the previous tenant.

Utility Construction Permit: Authorizes installation of water and/or sewer systems and facilities associated with commercial, multifamily and residential projects.

BE IT FURTHER RESOLVED, that the Director of the Department of Planning and Development, or the Director's duly appointed representative, is authorized to waive all fees hereby established in this Resolution for projects that serve a governmental purpose in accordance with the "Permit Fee Waiver Policy" adopted by the Board of Commissioners on May 19, 1992, or as subsequently amended.

BE IT FURTHER RESOLVED, that this Resolution shall become effective immediately upon execution.

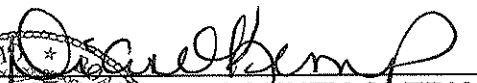

BE IT FURTHER RESOLVED, that all Resolutions, Ordinances and regulations or parts of same in conflict with this Resolution are hereby rescinded to the extent of said conflict.

THIS RESOLUTION IS ADOPTED BY THE GWINNETT COUNTY BOARD OF COMMISSIONERS this the 5th day of October, 2010.

EXHIBIT A

- A1. The building permit fee for commercial and multifamily construction pertinent to each new building, structure, or building/structure addition shall be assessed by multiplying the proposed building floor area under roof by the applicable fee rate listed in Table A (*Building Permit Fee Rates for Commercial and Multifamily Construction*) for the applicable occupancy and use for the following types of building permits:
- Foundation permit
 - Structural frame permit
 - Shell building permit
 - Spec Space complete permit
 - Spec Space incomplete permit
 - Interior finish permit (*initial build-out only*)
 - Complete building permit
- A2. The foundation permit fee for commercial and multifamily construction shall be assessed at 10% of the total building permit fee + \$30 administrative process fee. Refer to Table A (*Building Permit Fee Rates for Commercial and Multifamily Construction*) for the specific fee rate applicable to each occupancy and use.
- A3. The structural frame permit fee for commercial and multifamily construction shall be assessed at 50% of the total building permit fee + \$30 administrative process fee. Refer to Table A (*Building Permit Fee Rates for Commercial and Multifamily Construction*) for the specific fee rate applicable to each occupancy and use.
- A4. A credit of 10% of the total building permit fee is applied toward either the structural frame permit fee or the total building permit fee as applicable for projects with a previously issued foundation permit. A credit of 50% of the total building permit fee is applied toward the total building permit fee for projects with a previously issued structural frame permit.
- A5. For each new building, structure, or building/structure addition with two or more uses, the total building permit fee shall consist of the sum of the individual fees for each use within the building/structure as determined by multiplying the proposed building floor area under roof applicable to each use by the corresponding fee rate listed in Table A (*Building Permit Fee Rates for Commercial and Multifamily Construction*).

- A6. For each new building, structure, or building/structure addition, the permit fee portion for unheated building floor area under roof shall be assessed at the specific fee rate for a shell building permit applicable to each occupancy and use.
- A7. The miscellaneous building permit fee for commercial and multifamily construction shall be assessed at the specified rate of the construction valuation as either reported by the permit applicant or as determined from current year construction cost data publications approved by the building official (or his/her designee) except as noted otherwise.
- A8. The building permit fee for commercial and multifamily construction applicable to renovation and/or alteration of existing buildings, existing structures, existing interior finish construction, and existing spec space construction shall be assessed at the rate of five (5) dollars per thousand (1000) dollars of the construction valuation as either reported by the permit applicant or as determined from current year construction cost data publications approved by the building official (or his/her designee) for all occupancies and uses.
- A9. A separate building permit is required for each building, structure, building/structure addition, for each tenant and spec space, and for each unit in a multi-family condominium building.
- A10. A Certificate of Occupancy (C.O.) is required for each commercial and multifamily building permit applicable to occupiable space within a building, structure, or building/structure addition including each unit of multifamily condominium construction.
- A11. Fee for Temporary Certificate of Occupancy (T.C.O.) is in addition to the fee for Certificate of Occupancy (C.O.).
- A12. Fee for Temporary Certificate of Completion (T.C.C.) is in addition to the fee for Certificate of Completion (C.C.).
- A13. The Building Plan Review Fee is credited toward the total building permit fee for each project pertinent to new buildings, structures, and building/structure additions.

- A14. The plan revision fee for active building permits prior to issuance of either a Certificate of Occupancy (C.O.) or Certificate of Completion (C.C.) as applicable is assessed at \$50 (for up to 10 plan sheets) or \$100 (for more than 10 plan sheets) plus a construction valuation-based fee. The construction valuation-based fee for plan revisions which do not result in an increased building/structure floor area shall be assessed at the rate of five (5) dollars per thousand (1000) dollars of the construction valuation as either reported by the permit applicant or as determined from current year construction cost data publications approved by the building official (or his/her designee) with a total fee of not less than \$30. The construction valuation-based fee for plan revisions which result in an increased building/structure floor area shall be assessed by multiplying the proposed building floor area increase by the applicable fee rate listed in Table A (*Building Permit Fee Rates for Commercial and Multifamily Construction*) for the pertinent occupancy with a total fee of not less than \$30.
- A15. A separate building permit is required for each single-family residence, two-family residence (duplex), and townhouse.
- A16. The building permit fee for renovation/alteration of existing one- and two-family dwellings shall be assessed at the rate of six (6) dollars per thousand (1000) dollars of the construction valuation as either reported by the permit applicant or as determined from current year construction cost data publications approved by the building official (or his/her designee).
- A17. Expired building permits for new one- and two-family dwellings including additions may be renewed by the corresponding permit holders upon payment of the permit renewal fee in lieu of issuance of a new building permit.
- A18. The miscellaneous building permit fee for construction pertinent to new accessory buildings and non-building structures, additions to accessory buildings and non-building structures, and renovation/alteration of accessory buildings and non-building structures associated with one- and two-family dwellings shall be assessed at the rate of six (6) dollars per thousand (1000) dollars of the construction valuation as either reported by the permit applicant or as determined from current year construction cost data publications approved by the Building Official (or his/her designee).
- A19. Reinspection fees are assessed for follow-up field visits by department inspectors for inspection of items previously identified as either code, regulation, or construction violations which is not in compliance with approved plans as follows: \$25 for the first follow-up inspection, \$50 for the second follow-up inspection, and \$100 for each subsequent follow-up inspection.
- A20. Any individual who commences work on a building, structure, electrical, gas, mechanical, or plumbing system prior to obtaining the required

building permits shall be subject to a penalty fee of 100% of the applicable building permit fee in addition to the required permit fees.
